February 17, 2021

Dear Members and Friends of the BLTA,

Most likely you have read about the Off Shore Windmill Project in local publications or heard talk of it from your neighbors.

In this email, we have included a PDF file containing information gathered by the Joint Council of Taxpayer Associations of Long Beach Island (JCTA) regarding the Offshore Windmills Project (*click on the image below to read the PDF file*).

If you have comments or questions after reading this, please direct them to the BLTA through our [website](#).

Thank you,
Barbara Truncellito, President

JOINT COUNCIL OF LBI TAXPAYERS ASSOCIATIONS (JCTA)

This document was created by the Joint Council of LBI Taxpayers Associations (JCTA) as a public service regarding the planned wind energy farm to be located east of Long Beach Island. The questions were developed by the JCTA Board and submitted to the representatives of Atlantic Shores Offshore Wind, the company that holds the lease to build and operate these windmills. JCTA members and representatives from Atlantic Shores met via Zoom on February 3, 2021 for a detailed Q&A session.

The purpose of the document is to present information about the proposed wind energy project. This document is not intended to be a final or conclusive report and we are mindful that it only presents the perspective provided by Atlantic Shores. The JCTA is continuing to gather information from a wide variety of sources so that everyone is as well informed as possible and the concerns of homeowners, boaters, the fishing industry and tourists are addressed.

Should you have additional questions or comments, please submit them to the Barnegat Light Taxpayers Association through the website www.barnegatlighttaxpayers.org.

- WHO:** JCTA members, invited guests and members of a panel from Atlantic Shores Offshore Wind ("ASOW"); External Affairs Lead Jessica Dealy; Development Manager Doug Copeland; Community Liaison Officer Karen Hershey
- WHAT:** JCTA meeting
- WHERE:** Online on Zoom
- WHEN:** February 3, 2021
- WHY:** To gather information about the wind energy project off the LBI shore from the company who has the lease to build it
- HOW:** Twenty questions were submitted in advance to the ASOW panel; all invited guests were supplied a copy of the questions prior to the meeting. A JCTA member moderated the meeting and we proceeded through all twenty questions with JCTA members asking additional questions as we went along. There was a Q&A period at the end of the meeting in which all invited guests could participate.

PROCESS

- 1) How have you involved state regulators, government officials, community leaders and local residents in your plans? Specifically, what meetings, communications and/or planning sessions have you had with those listed below? Please also state with whom and when.
